## **Supporting Statement to Application to World Boxing**

As a former international referee and judge, and former IBA R&J Committee Chair, and current International Technical Official and Technical Delegate at international level, I bring a wealth of knowledge and experience in competition structures, conduct and operations that have produced positive outcomes for officials and athletes.

In my former role as IBA R&J Committee Chair, I was responsible for managing R&J Observer/Evaluator training and appointments, R&J pathways, and appointments to key competitions. Prior to becoming Chair, I was a member of the Committee and tasked with creating and delivering the new and improved ITO/Evaluator hybrid training to build the pool of accredited officials. I was also a key part of the team to rewrite and modernise the R&J Manual and Bout Review.

If successful, I will bring honesty, fairness, integrity, and accountability to the position, striving for positive outcomes from a Sport and Competition Committee for the betterment of our sport and providing workable solutions to help officials and athletes reach their goals.
