The TD represents World Boxing on-site and is responsible for ensuring that all technical, sporting, and competition-related activities are conducted in full compliance with World Boxing Competition Rules.

The Technical Delegate has overall responsibility for the technical delivery and safety of the competition.

1.2 Accountability

- The Technical Delegate is directly accountable to World Boxing.

- The Technical Delegate is subject to formal performance evaluation at each competition.

1.3 Authority

The Technical Delegate is empowered to:

- Enforce World Boxing Competition Rules.

- Approve and sign off on official draws, competition schedules, weigh-in sheets and Draw Commissioner sheets.
 - Supervise, manage, and evaluate Technical Officials (TOs).
-

2. CORE RESPONSIBILITIES

The Technical Delegate's responsibilities are divided into three operational phases:

- Pre-Competition Phase
 - Competition Phase
 - Post-Competition Phase
-

3. PRE-COMPETITION PHASE

3.1 Competition Compliance and Readiness

The Technical Delegate shall ensure that the competition is organized strictly in accordance with World Boxing Competition Rules and any approved amendments.

In coordination with World Boxing Sport department, the TECHNICAL DELEGATE is responsible for confirming readiness of:

- Competition and training venues
 - Locations
 - General layout and equipment needed
 - Entrance and exits for all stakeholders
 - Spaces required (warmup area, mixed zones, lounges, anti-doping and medical rooms)
- Field of Play and technical areas
 - FOP layout
 - FOP equipment
 - Flows in and out of the FOP
- Medical services and emergency procedures
 - General medical and evacuation plan. Ensure WB and LOC medical teams are in communication with each other.

 - Room set up and equipment

3.2 Boxing Entries Check

The Technical Delegate shall supervise the Boxing Entries Check and ensure:

- Attendance of all entered teams
- Validation of all required documentation, including:
 - Copy of Passports or Refugee Documentation
 - Boxer Record Books
 - Medical Certificates
 - Declarations of non-pregnancy (where applicable)
 - Competition Uniforms (Red and Blue)
 - Sex eligibility (Gender Certificate) SRY Test or FSH Test.
 - Code of Conduct if not submitted online
 - Conditions of Participation if not submitted online.

The Technical Delegate should revert to the Event Invitation to confirm which documents are required at each Events BEC.

The Technical Delegate will sign off/approve when a Team has completed registration. The LOC will only administer accreditations, once confirmed by the Technical Delegate.

After the BEC, the Technical Delegate should confirm the boxers by weight category together with the Scoring System Operator to make sure all boxers are in the correct weight category. This should not be left on the responsibility of the Scoring Operator or World Boxing staff only.

Any name changes requests, spelling changes, weight category changes should all be recorded at the time of Boxing Entries Check and then communicated with the Scoring Operator for Official change request.

3.3 Competition Schedule

The Technical Delegate (TD) should have a working knowledge of competition scheduling and collaborate closely with the World Boxing Competition Manager and Scoring Operators to ensure technical and timing alignment.

- Each session should not exceed 3 hours where possible.
- Plan for 15 minutes per bout, equating to approximately 4 bouts per hour in one ring.
- Finals bouts should be scheduled for 15 minutes, with an additional 4–8 minutes allocated for Medal Ceremonies, depending on venue operations and Sport Presentation plans.
- A minimum 2-hour break is required between consecutive sessions.

- Where possible, include a mix of Women's and Men's bouts in each session.
- The Technical Delegate must not make changes to the Competition Schedule without communicating with relevant stakeholders such as Broadcast, Venue Management, LOC Competition Manager, Event Director, Medical.
- Each round of a weight category should be grouped within the same session, unless there are extraordinary circumstances. ~~where possible~~. Example: All Round of 16 bouts in Men's 60kg should be scheduled in a single session, not across multiple sessions.
- A zero-time agreement should be made with the host Broadcast and Sport Presentation Team before the start of the Competition. Example: The session start is 14:00 and zero-time is 14:00, the boxer is announced to the ring at 14:00, not at 13:58.
- For Preliminary to Semi-Final rounds, bouts should run continuously.
- If a bout ends early (e.g., RSC in Round 1), the next bout proceeds without delay subject to clearance by medical staff and readiness of the Field of Play.
- For Finals, bouts must run at their scheduled times, regardless of earlier finishes.
- Distribute rest days evenly across weight categories where feasible, to avoid concentrated downtime in specific divisions.
- Whenever possible, maintain session consistency for each weight category across the tournament.
 - Example: If Men's 70kg begins in the afternoon session, all future rounds (QF, SF, Finals) should ideally remain in afternoon sessions.
 - Note: Any category boxing in the last session of the day, should not box in the first session of the following day.
- If Finals are held across two sessions, aim to distribute Men's and Women's Finals equally across both sessions.
- Any Semi-Final and Final rounds taking place in the same session, should always feature the final bouts at the end of the session.
